emerging and traditional technologies pdf

Emerging technologies are technologies that are perceived as capable of changing the status quo. These technologies are generally new but include older technologies that are still controversial and relatively undeveloped in potential, such as preimplantation genetic diagnosis and gene therapy which date to 1989 and 1990 respectively.. Emerging technologies are characterized by radical novelty ...

Emerging technologies - Wikipedia

Emerging technologies are those technical innovations which represent progressive developments within a field for competitive advantage.
