On June 21, the House passed the Agriculture Committee's (the Committee) farm bill, which includes nutrition provisions that would increase food insecurity and hardship. By adopting harmful amendments during floor debate in May, the House made the bill that ultimately passed even worse than the version the Committee originally introduced (see Appendix I).

Agriculture is the cultivation of land and breeding of animals and plants to provide food, fiber, medicinal plants and other products to sustain and enhance life. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. The study of agriculture is known as agricultural ...
