Industry Insights. The global piezoelectric materials market size was valued at USD 1.17 billion in 2015. Rising popularity of piezoceramics on account of exhibiting high dielectric constant for the production of electronic goods is expected to drive industry growth.

With a multi-dimensional and in-depth view of world piezoelectric device market, this report is ideal help for you with decisions about international market penetration, business expansion or project feasibility analysis.

Global Piezoelectric Device Market - Market Research Reports

Piezoelectric actuators and motors find wide application in vibration cancellation, gene manipulation, machine tool alignment, fiber tool alignment, active damping, shockwave generation, wafer mask alignment, and image stabilization, which is also expected to drive the global piezoelectric actuators and motors market growth over the coming years.

World Market For Unworked Synthetic Or Reconstructed

APAC is expected to hold the largest size of the piezoelectric device market by 2022. APAC is the largest producer of piezocrystals as it produces around 2 billion piezocrystals every year. These piezocrystals have applications in consumer electronics.
