A facial expression is one or more motions or positions of the muscles beneath the skin of the face. According to one set of controversial theories, these movements convey the emotional state of an individual to observers. Facial expressions are a form of nonverbal communication. They are a primary means of conveying social information between humans, but they also occur in most other mammals ...

At the bottom of this post you will find a button to download a FREE PDF copy.. You will noticed that on many blogs and forums when people answer the question "why should I meditate" or "what are the benefits of meditation", they do mention a few health benefits, and spiritual benefits, but leave a lot behind; or they often lack scientific evidence backing up what they say (like this one).
